SUNOVA SURFBOARDS

XXX

TEC

XXX-TEC IS SUNOVAS PREMIUM CONSTRUCTION
AVAILABLE IN ALL SHAPES

XXX-TEC (Triple X-Tec) is possibly *THE LIGHTEST* and *THE STRONGEST*,
PERFORMANCE construction currently available in the SUP-market.

Developed by Shaper Of The Year BERT BURGER for the SUNOVA Surfboard range
it's proved itself in the most all *PERFORMANCE* situations for over 20 years now.

| Full Balsa Sandwich | Carbon Rails | inFINity high density fin system |
| extra strong impact-resistant deck density | shock absorbing bottom density |
| UV - resistant automotive finish clear lack |

every board is hand-made in Thailand to order in our own factory

**XXX-TEC IS SUNOVAS PREMIUM CONSTRUCTION
AVAILABLE IN ALL SHAPES**

3mm maximum traction pad with premium grade adhesive

Premium 'LIFT-SUP' pull-out carry handle

Mini Windsurfing sail track

inFINity system on all fin boxes made to last

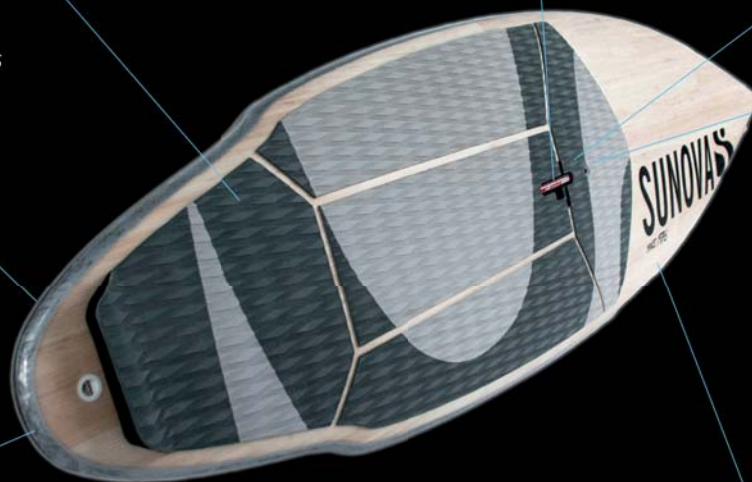

Self breathing Air-Vent

UV-resistant finish coat (automotive formula)

4x bag strap on plugs on all boards longer than 10'0

High Impact Carbon parabolic rails with hand-brushed finish

Feather light, super strong balsa wood / epoxy sandwich construction

THE ACID

ULTRA-HIGH PERFORMANCE WAVE
SHREDDING MACHINE

LENGTH	WIDTH	THICK	VOL
7'4	24 3/4"	3 3/4"	69L
7'7	25 5/8"	3 3/4"	74L
7'10	26 3/8"	3 3/4"	81L
8'1	27 1/4"	3 7/8"	89L
8'4	28 1/8"	4"	97L
8'7	28 7/8"	4 1/8"	106L
8'10	29 3/4"	4 1/4"	116L
9'1	30 5/8"	4 3/8"	126L
9'4	31 1/2"	4 1/2"	136L

THE ACID is the about Performance all the way. NO compromises!
Any move you do on a standard surfboard do them with this board. The outline fits in more powerful waves, with lots of tail rocker and the hip. Speed, power, and all movability you need. Rule the wave with this board.

DESIGNED BY Bert Burger

THE INSANE

YOU'RE CRAZY JUST THINKING
ABOUT IT!

LENGTH	WIDTH	THICK	VOL
7'11"	23 5/8"	3 7/8"	74L
8'5"	25 1/8"	4 1/8"	89L
8'11"	26 5/8"	4 3/8"	106L
9'5"	28 1/8"	4 1/2"	124L
9'11"	29 5/8"	4 3/4"	145L

THE INSANE is for when it's BIG! A performance step-up shape with an outline and rocker to handle the big waves out there. Anything from above over-head to double over-head is when you want to go insane.

This is the exact same board our pro's are riding in competition when it's huge.

DESIGNED BY Bert Burger

10 | 11

SUNOVAS

THE FLOW

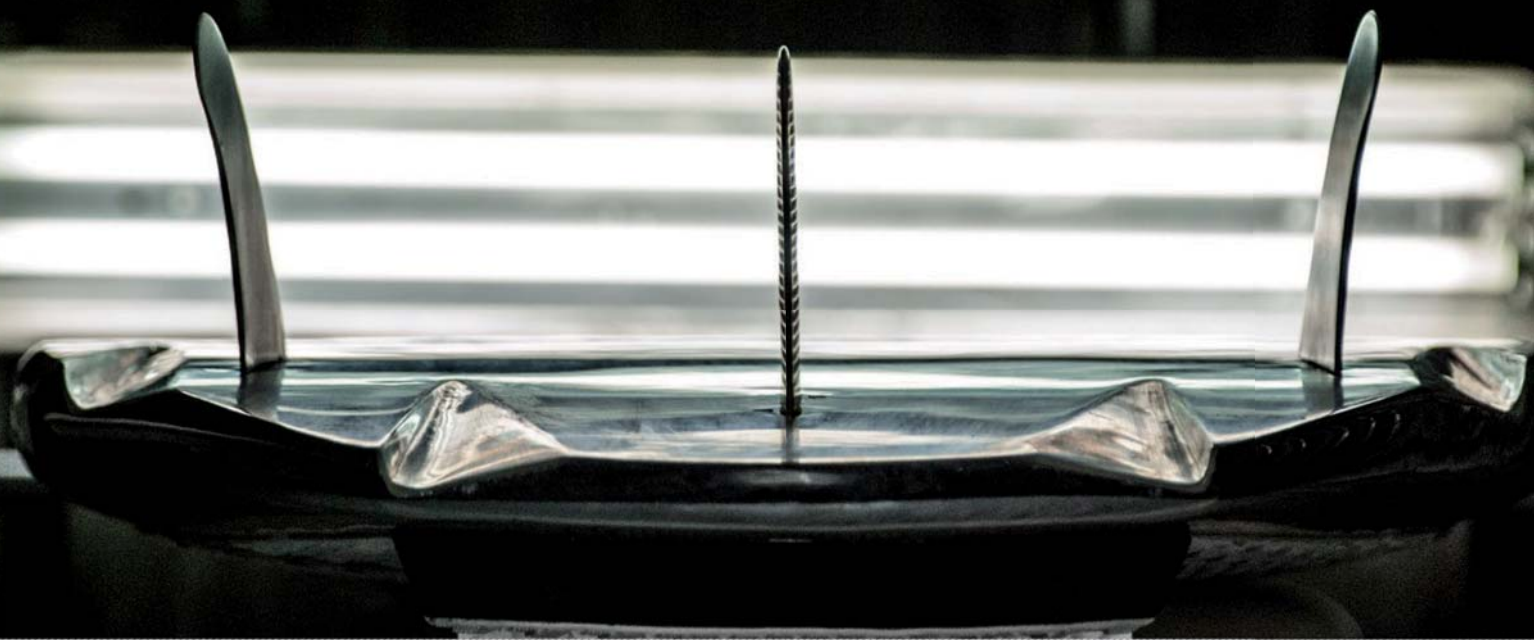

ULTIMATE PERFORMANCE
ANYTIME

LENGTH	WIDTH	THICK	VOL
75	26 1/8"	3 3/4"	78L
77	26 3/4"	3 7/8"	83L
7'10	27 5/8"	4"	92L
8'1	28 1/2"	4 1/8"	101L
8'4	29 3/8"	4 1/4"	110L
8'7	30 1/4"	4 3/8"	121L
8'10	31 1/8"	4 1/2"	131L
9'2	32 3/8"	4 5/8"	147L
9'6	33"	4 3/4"	159L

THE FLOW is our most performance shape for any conditions. Based on one of Bert's and Chapstar's most successful Surfboard designs and tweaked for SUPs you will think and it will go there. It's the most versatile Surf shape we got and if you want power surfing this is the weapon for you.

DESIGNED BY Bert Burger | 

XXX-TEC | VISUAL

THE SPEED

EXPERIENCE SPEED AND DRIVE
LIKE NO OTHER

LENGTH	WIDTH	THICK	VOL
73	24"	3 7/8"	73L
76	24 3/4"	4"	80L
78	25 1/2"	4"	87L
7'11	26 1/8"	4 1/8"	94L
8'2	27"	4 1/4"	103L
8'5	27 3/4"	4 3/8"	112L
8'8	28 1/2"	4 1/2"	123L
8'10	29 1/8"	4 5/8"	130L
9'2	30 1/4"	4 3/4"	148L
9'5	31 1/2"	4 7/8"	160L
9'11	32 3/4"	4 7/8"	173L

THE SPEED is really almost like 2 separate boards. With its super straight outline it's made to fly. It picks up speed increadably easy. But the tail is radically narrow and basically allows the rider to throw the board around on pure thought! It's amazing how this is even possible.

DESIGNED BY Bert Burger

THE SOUL

SMOOTH PERFORMANCE SURFING
WITH EASE OF USE

LENGTH	WIDTH	THICK	VOL
7'10"	27 1/2"	4"	94L
8'3"	29"	4 1/4"	110L
8'6"	30"	4 3/8"	121L
8'11"	31"	4 1/2"	137L
9'5"	31 3/4"	4 5/8"	150L

THE SOUL is surfing pure. A performance shape with an outline and rocker to handle bigger waves as well as some small mushy ones.

It's easy to use due to the specific rail shape and it allows more freedom

This board is as much performance as you can get without becoming a pro.

THE SHROOM

WHAT-EVER THE WAVES...

LENGTH	WIDTH	THICK	VOL
7'3"	28 3/16"	2 2/8"	86L
7'6"	29 1/8"	3"	95L
7'9"	30 1/8"	3 1/8"	105L
8'0"	31 1/16"	3 3/16"	115L
8'3"	32 1/16"	3 5/16"	126L
8'7"	33 3/8"	3 7/16"	142L
8'11"	34 5/8"	3 9/16"	160L

THE SHROOM is designed to handle mushy and average waves and allows you to go out, get wet and still have fun surfing. It's crazy shape allows you to go as short as possible, while being super stable and comfortable to ride. Maximum fun when there normally would be none.

DESIGNED BY Bert Burger

THE SKATE

POSSIBLY THE FUNNEST BOARD
YOU'VE EVER RIDDEN!

LENGTH	WIDTH	THICK	VOL
8'0"	29"	4"	105L
8'3"	29 3/4"	4 1/8"	115L
8'6"	30 3/4"	4 1/4"	124L
8'10"	32"	4 1/2"	143L
9'2"	32"	4 1/2"	148L

THE SKATE stands for fun all the way. If there are no waves or big ones this board goes and it goes fast and easy. It's super stable and incredibly easy to turn. You will be amazed how it just happens. If you want fun and you not sure of the waves, this board is the board.

DESIGNED BY Bert Burger

THE SKATE XL

POSSIBLY THE FUNNEST BOARD
YOU'VE EVER RIDDEN
JUST WIDER!

LENGTH	WIDTH	THICK	VOL
8'2"	31 3/4"	4 1/4"	125L
8'8"	32"	4 1/4"	135L

THE SKATE XL is the ultimate eXtra. Just as fun, but wider.

The Skate stands for fun all the way. If there are no waves or big ones this board goes and it goes fast and easy. Its super stable and easy to turn. If you want fun and you not sure of the waves, this is it.

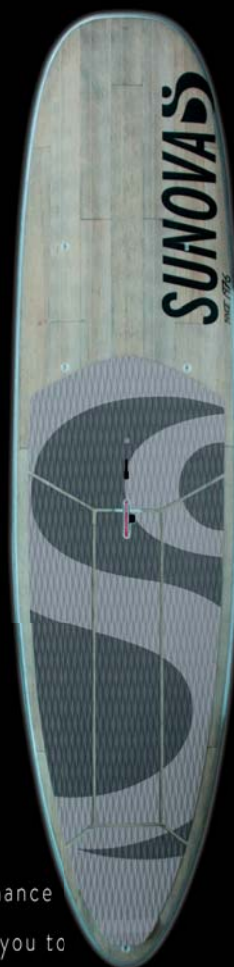

DESIGNED BY Bert Burger

THE STYLE

STYLE IN THE WAVES ON THIS
LONGBOARD BEAUTY

LENGTH	WIDTH	THICK	VOL
9'6"	27 1/2"	3 7/8"	112L
10'0"	29"	4"	130L
10'6"	30"	4 1/8"	148L
XL 9'6"	29"	3 7/8"	118L
XL 10'0"	30 1/2"	4"	139L
XL 10'6"	32"	4 1/8"	155L

THE STYLE is designed for the ultimate longboard styling performance without any compromises. Its amazingly refined shaped will allow you to nose ride, walk the board and turn it well. With the straight outline and thin rails it gives you what you need to look stylish. In one word: Longboarding...

DESIGNED BY Bert Burger

THE SURF

ALLROUND PERFORMANCE
LONGBOARDING

LENGTH	WIDTH	THICK	VOL
10'0	29"	4 1/4"	142L
10'6"	30"	4 3/4"	177L

THE SURF is the most allround performance longboard in our range. We concentrated on versatility, stability and wave riding performance. It enables you to nose ride, as well as being able to go top to bottom with ease. It's really fun in flat water, as well as waves.

DESIGNED BY Bert Burger

THE KRUIZE

FLY IN DOWN WINDERS, GLIDE ON
FLAT WATER, MASTER THE WAVES

LENGTH	WIDTH	THICK	VOL
10'6"	30"	4 1/2"	171L
12'0"	33"	4 5/8"	219L

THE KRUIZE is one of the most allround boards we have. Touring in flat water or play with your family, while still being able to surf waves. With a flatter rocker than the surf boards, it will be faster and easier to paddle without surf. The outline and the shape still allows good surfing.

THE SEARCH

THE ULTIMATE OPEN OCEAN
ADVENTURE WEAPON

LENGTH	WIDTH	THICK	VOL
12'0"	30"	4 1/2"	179L
14'0"	30"	4 3/4"	218L

THE SEARCH is a special design, combining several different areas in one. Downwind riding, but with the ability to actually surf the swell. Due to its length it also works really well in flat water as touring board, or as pure fun board due to its excellent stability. Search for the fun.

DESIGNED BY Bert Burger

SUNOVA SURFBOARDS

XXX²

TEC

XX²

TEC

XXX²-TEC IS SUNOVAS RACE CONSTRUCTION
AVAILABLE IN *FAST²* SHAPES

XXX²-TEC (Triple X square - Tec) is the natural next step to XXX-TEC.
The ultimate goal in SUP-RACING being: **THE LIGHTEST** and **THE STRONGEST**
We developed a version of this technology that does not compromise until
those goals are achieved. The result is a ridiculously extensive custom
manufacturing process, but fully worth it:

Full Balsa Sandwich	Full Balsa Rail Wrap (double vacuum)
extra strong deck density	shock absorbing bottom density
inFINity high density fin system	UV-resistant automotive clear lack
mosaic-multi-density EPS-Core	
every board is hand-made in Thailand to order in our own factory

XXX²-TEC IS SUNOVAS RACE CONSTRUCTION
AVAILABLE IN FAST² SHAPES

THE FAST² (12'6")

THE RACE SUP (flat)
FASTEST | LIGHTEST | STRONGEST

LENGTH		WIDTH		THICK		VOL
12'6"	red	23"		4.5 7"		180L
12'6"	orange	24"		4.5 7"		201L
12'6"	yellow	25"		4.5 7"		218L
12'6"	blue	27"		4.5 7"		256L
12'6"	purple	29"		4.5 7"		287L

THE FAST² is the ultimate proof of what technology can do. Possibly the lightest, definitely one of the strongest constructions available in the water. Double vacuum, full wrapped balsa sandwich, and an amazingly fast shape, that's as stable as can be. Not fast, FAST!

DESIGNED BY Bert Burger

THE FAST² (14'0")

THE RACE SUP (flat)
FASTEST | LIGHTEST | STRONGEST

LENGTH		WIDTH		THICK		VOL
14'0	red	23"		4.5 7"		223L
14'0	orange	24"		4.5 7"		232L
14'0	yellow	25"		4.5 7"		242L
14'0	green	26"		4.5 7"		251L
14'0	blue	27"		4.5 7"		259L
14'0	dark blue	28"		4.5 7"		268L
14'0	purple	29"		4.5 7"		277L

THE FAST² is the ultimate proof of what technology can do. Possibly the lightest, definitely one of the strongest constructions available in the water. Double vacuum, full wrapped balsa sandwich, and an amazingly fast shape, that's as stable as can be. Not fast, FAST!
